

Use of VPN f5 Remote Access System

Virtual Protected Network

1 Open your internet browser

Go to this URL: <https://connect2.rha-rrs.ca>.

2 In the portal

Click on **VPN Logon with RSA token**.

3 With the RSA App

Enter your **PIN** and click the **right arrow** or press **enter**.

4 Username and passcode

Enter your **username**, followed by the **passcode** you obtained from entering your PIN and in RSA app and clicking the right arrow or enter. You can also use the **copy option** and paste the passcode.

Put the **code in the passcode field**, then click on **Logon**.

5 Access the system

The f5 Remote Access system will open automatically.

Accept any security prompts while the Virtual Protected Network (VPN) opens.
